WHO IS THIS FOR?

- New business entrants in sustainable packaging
- International clients setting up eco-friendly packaging units
- Existing units looking to scale or streamline

SERVICE INCLUDE

PLANT SETUP CONSULTING

We guide you in setting up eco-friendly packaging plants across regions like Africa, Nepal, and the Gulf — from machinery selection to layout planning.

BRCGS / ISO DOCUMENTATION HELP

Our experts assist in preparing all necessary documentation for international certifications like BRCGS and ISO 22000, ensuring full compliance with global standards.

EXPORT SUPPORT CONSULTING

Get expert advice on export documentation, compliance, and logistics to streamline your global distribution and reach new international markets.

OEM & CONTRACT MANUFACTURING GUIDANCE

We provide end-to-end support for businesses looking to launch private-label packaging products through OEM or contract manufacturing.

STAY AHEAD WITH INSIGHTS AND EXPERT SUPPORT

Expert guidance on technical challenges and market growth, with timely updates on the latest industry trends—keeping your business ahead.
